

[The] instructor was very approachable and encouraging to her students. I felt like I could ask her any question, any time, and knew she would always give a kind response.

Columbus State Social [Work] and Human Services Program saved my life. This program has given me a reason to live. Having a career and a job in the field and being licensed and trusted to provide services is one of the biggest reasons I love myself again. Having a job that I am proud of and a career that is about other people has been the best experience of my life. I am a living, breathing proof that people can change and without the support, encouragement and guidance from Columbus State Social [Work] and Human Services program and staff I would not be where I am today. Because of this program I have wonderful career and opportunities for continued growth. Having the support from my professors was the primary reason I was able to finish this program. My teachers made it a safe place for me to be open about my own flaws and gave me more than just tools to run groups and sessions. They gave me tools to help me grow as a person.

[The instructor] was a breath of fresh air. she was involved, present, and she radiated positivity during such a difficult time in our lives. I was able to retain things extremely well because her method of instruction is incredible. She makes sure everybody understands what they are learning, nobody gets left behind. Her instructions are clear, concise, and helpful. It is apparent that she is invested in her students as well as her work which I feel is a very important quality in a professor. She also gives fair and constructive feedback.
